Regulatory Contact: Larry Kimmel
Phone: Harlen Ainscough

Agency: US EPA/ CDPHE

Purpose of Contact: B Pond Site Preparation and Pilot Stabilization

Discussion

This contact record is to document approval to implement 2 work packages at the B Ponds. The first work package is for site preparation including erosion control, surface water run-off control, monitoring well protection, road improvement and constructing staging areas. The second package is for implementation of a pilot stabilization of the sediment in B1. The pilot stabilization will include mixing a truckload of portland cement (25 tons) with approximately 500 cubic yards of sediment (5%) to evaluate mixing process, cement distribution, dust control, sediment depth, and mix ratios. The lessons learned during the pilot stabilization will be incorporated into the B Ponds remediation work documents.
